PUTEAUX

Tech Skills

- Project Management: Agile/Scrum, Jira, Confluence, Miro, Notion, Smartsheet
- Systems Architecture: SOA, APIs, API Management, Headless CMS (Laravel, WordPress, Drupal)
- AI-Assisted Full-Stack Development: Cursor, Codex, Claude Code, OpenCode, Skills, MCP
- AI/LLMs & Machine Learning: Python (scikit-learn, PyTorch, FastAPI), Vector Databases, LangChain, Ollama, Hugging Face, Fine-Tuning, LoRA, RAG
- DevOps & Cloud: Git, Docker, Linux, CI/CD, Load Testing, AWS, DigitalOcean, Claranet

Soft Skills

- Teamwork
- Analytical Thinking & Decision-Making
- User & Customer Focus
- Intellectual Curiosity

Education & Training

- 2026 – Aug to Nov

LLM & AI Agents Training

Blent IA - Paris

- 2004

Master's Degree in Computer Science – Web Engineering

Faculty of Science – University of Caen Normandy

- 2002

MBA in Marketing – New Technology Products

Coventry Business School - UK

Master's Degree in Management Sciences

IAE Caen – School of Management

- 2000

University Diploma in Business Administration (DUT)

Caen University Institute of Technology (IUT)

Languages

English – Advanced, professional working proficiency

Spanish – Intermediate

Interests

IT, AI, Flight Simulation, Golf, Athletics, Guitar

Arnaud BRETON

Tech Lead / Product Engineer – Architecture & AI

Profile

With over 20 years of experience in digital technology, I combine engineering expertise, software architecture and product thinking to build practical, robust and scalable solutions. From business requirements to deployment, I guide technology decisions, full-stack development, AI integration and process automation. I bring hands-on delivery, consulting and technical leadership together to turn client challenges into effective, maintainable applications.

Professional Experience

Full-Stack Design & Development of SaaS and AI Systems

Nov 2025 – Present

- Architecture, product design and startup advisory for an AI-powered CRM SaaS
- Architecture, design and full-stack development of an AI/ML recommendation SaaS
- Architecture, design and deployment of AI automation solutions (n8n, AI, APIs) for digital app production and quality assurance

Digital Technical Project Director

2018–Oct 2025 | Mazarine – Digital Division – PARIS

- Technical leadership and delivery oversight for multi-account digital projects, integrated with clients' information systems and aligned with business goals
- Defined technology strategies and designed cloud architectures
- Selected and managed external vendors
- Prepared project estimates
- Managed budgets, schedules and risks
- Oversaw testing, deployment and performance monitoring
- Led technical project managers and developers
- Paris National Opera: €800k/year, quarterly releases, team of 6
- Accor–Thalassa: €500k, 1 year, team of 5
- Accor–LVMH: €350k, 1 year, team of 4
- APIs: Hospitality, Ticketing, Payments (Stripe), Social (Meta)

Digital Technical Project Manager

2015–2017 | Mazarine – Digital Division – PARIS

- Technical management of digital projects
- Introduced engineering processes for development teams
- Managed a team of 4 developers
- Advised clients on technical solutions
- Luxury brand websites: OTB Group – Maison Margiela (€350k), Bottega (€250k)

Technical Project Manager / Lead Back-End Developer (Zend & WordPress)

2012–2015 | Will Up Digital – Theatre Ticketing & Trailers – PARIS

- Technical delivery of digital ticketing, e-commerce and streaming projects
- Led teams based in France and offshore
- Lead PHP back-end developer (Zend Framework 1.9) and WordPress
- API / API management architecture (Apigee)
- Authored the 2013 R&D innovation project for French research tax credits

Full-Stack Developer (Front End / Back End)

2005–2012 | Zone Rouge – Motorsport Startup – SAINT-CLOUD, FRANCE

- Front-end and back-end website development
- Development of a live rally scoring system (XML, XSD, PHP)
- French Motorsport Federation (live scoring), Autosport Academy
- Rallye Jeunes (e-commerce), Citroën WRC (live scoring), Renault Sport
